

INFO SHEET : COFFEE SOLIDARITY INITIATIVE

07th of July 2018 : arrival day / 29th of July: departure day

PROJECT

“La Maison du Colonel” is a project of expansion and rehabilitation of a small house located in Elbeuf district in Amiens to create an associative coffee. Each step of the project has been made in a creative and participative way. Since the creation of “La Maison du Colonel” in 2014/2015, exchanges with Concordia have been continuous. In 2017, implementation of participative project (workshops, workcamps), the link with apprentice training center, with the social center and the obtention of the building permit to start the restoration work gave the impulse to create an ambitious youth exchange with several aims:

- Multi partnership project at local and European level
- Ambition to create links between equivalent initiatives in Europe
- Have a strong impact on the district with the venue of Europeans including youngsters of the city
- Allow inhabitants to have an opening to Europe
- Raise awareness of the impact of architecture on our lifestyles and areas
- Spread about the possibility of each citizen to re-appropriate his living space

ACTIVITIES:

We planned different types of activities, so that the participants will have a very diverse and enriching experience. Our topics being linked with the implementation of a local associative coffee, we will organize meetings with local associative life. During the exchange, we'll have 3 different types of activity :

- Workcamp: The renovation and construction of the associative coffee. The work will mainly be around the isolation of the house, hemp and lime

- Discovery of the region: as the project is taking place during the national holiday there will be a special evening planned around it, with a ball, commemoration. Also, there is the "Tour de France" passing by Amiens this year on the 14th of July.
- We will insist upon interculturality and the discovery of the other, which means sharing our knowledges, our opinions and our culture, especially during intercultural evenings which will take place 2 times a week. These evenings will be devoted to the discovery of the different countries, with food cooked by the participants as well as games and music. This project will also enable the participants to improve their English, but they will also be able to share their native languages with the others

Reflexion times are also planned, allowing the participants to share their knowledges and allowing exterior speakers to bring new information to them. Concordia uses popular education tools, especially learning through your peers. We would like the participants to share their knowledges, to share their mutual cultures, their differences and similarities so this exchange can have an intercultural dimension.

The whole planning will be introduced on the first day of the youth exchange.

PREPARATORY WORK :

! Please, make sure to prepare something before your venue:

- the local initiatives which may exist in your own country around local associative coffee,
- think about meals or drinks you want to share during the intercultural evenings,

You can also prepare some information related to your sending organization as the history of your Sending Organization or everything you want to share with the group.

SPECIAL DIET AND HEALTH TROUBLES:

Thanks to let us know as soon as possible if you have food allergy, special diet (no pork diet, vegetarian diet...) or any other issue we can avoid during the project. You can use the application form to let us know about your diet or health issues.
